STS091-360-010

15

- 1 The STS-91 crew and the Mir 25 crew gather in the Mir core module for a portrait.
- 2 Astronaut Andy Thomas works out on a Mir treadmill before joining the STS-91 crew.
- 3 Valery Ryumin, Russian director of the shuttle-Mir program and STS-91 mission specialist, embraces cosmonaut Nikolai Budarin just after hatch opening.
- 4 Mir floats above the Earth as seen from *Discovery* on the final flyaround.
- 5 Thomas signs autographs at welcoming ceremonies.
- 6 Ryumin and Frank Culbertson, Russian and U.S. heads of the shuttle-Mir program, talk after the mission.
- 7 Ryumin takes a turn at galley duty aboard *Discovery*.
- 8 Thomas adds the last signature to a plaque with names of all U.S. visitors to Mir.
- 9 Payload commander Franklin Chang-Díaz works with the Alpha Magnetic Spectrometer experiment aboard *Discovery*.
- 10 Cosmonaut Talgat Musabayev strums a tune from sheet music held by *Discovery* Commander Charles Precourt.
- 11 Mission specialist Wendy Lawrence exercises aboard *Discovery*.
- 12 *Discovery* pilot Dom Gorie prepares a meal.
- 13 The Alpha Magnetic Spectrometer as photographed from Mir.
- 14 Lawrence and Mission Specialist Janet Kavandi work on the flight deck during rendezvous operations.
- 15 *Discovery* crewmembers check the morning mail.
