Space experts and enthusiasts from around the world came together at World Space Congress 2002 in Houston, Texas, Oct. 10-19 to discuss the current status and future vision for space exploration and commerce. Nearly 4,500 registrants attended the Congress' plenary and technical sessions and visited innovative exhibits in the NASA Village. There were also special activities for young people. The Space Rocks! Kids Festival on Oct. 18 at the University of Houston provided activities and games to inspire children in science, math and engineering. Here, some kids have fun outside the Benefits of Space trailer exhibit. **To see more photos from World Space Congress, turn to Page 4.**
