**PEOPLE**

“These photos can be a tool to communicate, but also to educate and hopefully inspire, outside and inside NASA,” said Coppel. “They can create a different face, a more personal look, than what is usually given. It is like going inside a family and being with them, not just for the big wedding and the births, but every day – when they are working, cooking, when they are happy and when they are in pain, but always with much love and respect for everyone and what they are doing.” ■

**OnDisplay**

You can see a second exhibition of Coppel's first **NASA People at Work** photos at a special onsite viewing. The collection will be on display in the Bldg. 11 cafeteria through January 5, 2001.
