

**EDUCATORS!**

**Come to the  
Houston Museum  
of Natural Science  
to design your own  
Space Program.**

**• Make Space for the World's Kids  
A Space Science Education Festival**

**Thursday, October 17, 2002,  
Houston Museum of Natural Science  
6:00 pm – 10:00 pm  
RSVP: (acceptances only) 713-639-4629  
(ask for school group reservations)  
ADULTS ONLY**

*Sponsored by the Houston Annenberg Challenge, the National Aeronautics and Space Administration, Houston Museum of Natural Science, Houston Independent School District, Rice University, the Boeing Company, IMAX Corporation, Phi Beta Kappa, Texas Southern University, Lockheed-Martin, and Blue Lance Computer Security Software*

It's an evening of excitement, entertainment, and education for the World Space Congress! Activities include a full-dome film festival in the Planetarium, showings of the International Space Station IMAX introduced by an astronaut, an astronomy lecture by Dr. Virginia Trimble, new star domes to explore, and teacher workshops on space science and astronomy from the Johnson Space Center, the Lunar and Planetary Institute, the Rice Space Institute, and many others. The world's first Challenger Center will also have the latest Mission to Mars and a new Earth Forum interactive exhibit will explore the Earth from space. This will be an evening of space adventure for all ages in a program targeted to everyone—teachers and business leaders—who care about education. Participants will receive 3 hours of Texas' Continuing Professional Education Credit (CPE). All participants will receive a free space snack and there will be a cash bar throughout the night.

*Free for educators and those who want to make space science education better.  
To register, call the Museum at 713-639-4629 and ask for school group reservations.*
